Open House to Show Transportation Options for Westgate Area

(Edmonds - WA) Information on the SR 104 study, especially related to transportation facilities for the Westgate area, will be presented at an open house February 25th from 5:00 to 7:00 pm in the Brackett Room (third floor) of City Hall, 121 Fifth Avenue N. An oral summary will be given at about 6:00 pm.

The open house will include two separate sets of displays, one for the SR 104 study and one for a much broader Comprehensive Plan update. Both planning efforts are occurring simultaneously and both address transportation issues.

The SR 104 study (“Complete Streets Analysis”) began in 2014. It has focused first on recommendations for the Westgate portion of the highway because of future development and transportation issues being considered there.

Later phases of this study will look at other parts of the SR 104 corridor, including where the highway meets the City’s waterfront. A final draft of the full study is expected this summer.

Transportation Issues for SR 104 include traffic levels, safety needs, right-of-way treatment, and pedestrian and bicycle access.

For more information, contact Bertrand Hauss, Transportation Engineer, at 425.771.0220 ext. 1328.
